

Appln. No. 10/813,423

Attorney Docket No. 8627-452
Client Reference No. PA-5344-RFB/DIV**I. Listing of Claims**

1. (Original): A method for making a wire guide comprising:
providing a mandrel having a proximal portion and a distal portion;
applying a first coating having a low coefficient friction over the
mandrel;
removing the first coating from the distal portion of the mandrel;
connecting a coil to the distal portion mandrel;
applying a second coating over the distal portion of the mandrel,
wherein the second coating provides a sub-structure; and
applying a third coating over the second coating, wherein the third
coating comprises a surface that allows for easy maneuverability of the wire
guide.
2. (Original): The method of Claim 1 wherein the surface comprises a
polished surface.
3. (Original): The method of Claim 1 wherein removing the first coating
from the distal portion of the mandrel further comprises forming a tapered portion
on the distal portion of the mandrel.
4. (Original): The method of Claim 1, wherein the surface allows for the
easy maneuverability of the wire guide through a vascular anatomy.
5. (Original): A method for making a wire guide comprising:
providing a mandrel having a proximal portion and a distal portion;
